## The Income Tax

Grand Rapids, Mich., Jan. 20—The big Income Tax drive of 1919 is now under way, and every preparation is being made to handle the largest collection in the history of Income Tax. "I am not waiting for the final passage of the new Revenue bill by Congress," said Collector Emanuel J. Doyle today, "nor for the new regulations and blank forms to be issued. To get this big tax in and get it accurate and complete, I urge that we all begin now."

"The income tax obligations imposed by the old laws, as well as the measure now in Congress, consist of two distinct operations. One is, to file return or statement of all items of income and items of deductions allowable by law, and too do this within the period named in the law. The other is, to pay the tax, if any is due.

"Neither of these obligations can be met without a careful review of income and expenditure for the tax year. That is the big job right now, and that is why I say the Income Tax drive is already under way. Everywhere the pencil is busy. The old year is done; all its fruits are gleaned; and every person who fared well, or earned a good competence, must analyze his own case in old figures.

"When the new bill is enacted into law, I will have the proper return forms distributed throughout the District, and everybody will be informed of the date when the sworn return must be filed. It is my plan to send my men to central locations, and to have them ratel through the district, aiding taxpayers in the preparation of the returns and in deciding doubtful points. We will go right to the people with the Income Tax, and with the cooperation which the public can give the government men, the returns will be filed by everybody who comes under the law's provisions, the right taxes will be paid, and the district will have done its full patriotic duty toward the government's support.

"Meanwhile, let me say again, there is no need of delaying the preparation of figures. Anything that Congress does now will not affect the amount of a person's earnings for 1918. Let us avoid the belated throwing together of figures that may hit or miss. Guesses cannot be accepted as the basis of taxation. It is clearly the duty of every person to compile correct figures and ascertain whether his income for 1918 was sufficient to make necessary a sworn return.

"The year 1918 was a banner year for salaries and wages, and the high war prices brought unusual profits to the average small tradesman and to the farmer. The opinion in Washington is that a million citizens and residents will make this year their first income tax returns.

"All signs indicate that the income tax this year will reach nearly every working man and woman, and nearly every merchant, shopkeeper and farmer. Not all will have to pay
